## About Alaska 211 and McKinney-Vento Outreach

The Alaska Department of Education and Early Development (DEED) awarded a grant to United Way of Anchorage / Alaska 211 to help expand outreach to students who are experiencing homelessness in Alaska through the 211 call center.

Alaska 211 Community Resource Specialists ask every caller if they have school aged children (age 3-21), Pre-K through 12th Grade in the household. Based on the answer from the caller a series of additional questions are asked to determine if a connection to a homeless liaison could offer additional support in the school system. Callers can decline to answer the first question and decline to share the demographic information of their children. Alaska 211 has 54 School District records included in the database. Based on the callers preference, Alaska 211 can automatically email the callers detailed information directly to the appropriate School District Homeless Liaison or provide the caller with the contact information for the appropriate School District Homeless Liaison.

### Legend

**\*45 Non-Transactional calls:** non-productive i.e., misdial, hang-up, static, etc.

**\*\*0 Caller declined to share demographic information but did want to be contacted or receive the referral**

**\*\*\*Race/Ethnicity:** 6 Categories; American Indian or Alaska Native, Asian, Black or African American, Hispanic or Latino, Native Hawaiian/Pacific Islander, White

**\*\*\*\*Language:** 5 Options; English, Spanish, Alaska Native, Other Indo-European languages, Asian and Pacific Island. Additionally there is an other option.

If Alaska Native is selected, there are 21 languages to select.

**The age item is a count of how many transactions occurred for each specific age.** For example, if one child is 3 and another is 9 then the transaction is counted for both ages one time per age. **The same is true for gender.** There are more than one form per transaction with different genders. The transaction is counted more than once for each different gender type. If there is 1 male and 1 female each with a form completed in a single transaction then this would total to 2 total genders even though both are in the same transaction.
